## Semiannual report

# John Hancock Lifetime Blend Portfolios 

## Target date

February 29, 2024

Beginning on July 24, 2024, as required by regulations adopted by the U.S. Securities and Exchange Commission, open-end mutual funds and ETFs will transmit tailored annual and semiannual reports to shareholders that highlight key information deemed important for retail investors to assess and monitor their fund investments. Other information, including financial statements, will no longer appear in shareholder reports transmitted to shareholders, but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR.

## A message to shareholders

Dear shareholder,
Both stocks and bonds largely posted gains during the six months ended February 29, 2024. Concerns that interest rates would need to stay higher for longer led to a sharp increase in bond yields and weighed heavily on investor sentiment through late October. These worries rapidly dissipated in November, however, following a stretch of favorable inflation readings and more dovish comments from central bank officials. Stocks moved quickly off their previous lows in response and the U.S. Federal Reserve added fuel to the rally in December by indicating that the central bank may begin to cut rates later in 2024. Stocks surged in response, and the momentum continued through the end of the period. International stocks also gained, but their performance wasn't as robust. Short- and intermediate-term bond yields fell, while longer-term yields were flat to slightly higher. High-yield and investment-grade corporate bonds delivered the strongest returns for the period.

In these uncertain times, your financial professional can assist with positioning your portfolio so that it's sufficiently diversified to help meet your long-term objectives and to withstand the inevitable bouts of market volatility along the way.
On behalf of everyone at John Hancock Investment Management, I'd like to take this opportunity to welcome new shareholders and thank existing shareholders for the continued trust you've placed in us.

Sincerely,

Kristie M. Feinberg
Head of Wealth and Asset Management, United States and Europe
Manulife Investment Management
President and CEO, John Hancock Investment Management

## Lifetime Blend Portfolios’ strategy at a glance

## A SIMPLE, STRATEGIC PATH TO HELP YOU REACH YOUR RETIREMENT GOALS

Lifetime Blend Portfolios make diversification easy because the asset mix of each portfolio automatically changes over time.
Portfolios with dates further off initially invest more aggressively in stock funds.
As a portfolio approaches its target date, ${ }^{1}$ the allocation will gradually migrate to more conservative fixed-income funds.
Once the target date is reached, the allocation will continue to become increasingly conservative until it reaches the end of its glide path, investing primarily in fixed-income funds.

## JOHN HANCOCK LIFETIME BLEND PORTFOLIOS—AUTOMATICALLY ADJUST OVER TIME ${ }^{2}$

The chart below illustrates how the asset allocation mix of John Hancock Lifetime Blend Portfolios adjusts over time.

The principal value of each portfolio is not guaranteed and you could lose money at any time, including at or after the target date.
${ }^{1}$ Based on an estimated retirement date.
${ }^{2}$ Allocations may vary as a result of market activity or cash allocations held during unusual market or economic conditions.

## Portfolio summary

2065-2010 LIFETIME BLEND PORTFOLIOS' CLASS A SHARE RETURNS (\%)
For the six months ended 2/29/2024

Total returns for the portfolios exclude sales charges and assume all distributions are reinvested. The deduction of a class' maximum sales charge would reduce the performance shown above.
Past performance does not guarantee future results.

## MARKET INDEX TOTAL RETURNS

For the six months ended 2/29/2024

|  | S\&P 500 Index | $13.93 \%$ |

## Notes about risk

The portfolios may be subject to various risks as described in the portfolios' prospectuses. Political tensions, armed conflicts, and any resulting economic sanctions on entities and/or individuals of a particular country could lead such a country into an economic recession. A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange trading suspensions and closures, which may lead to less liquidity in certain instruments, industries, sectors or the markets generally, and may ultimately affect portfolio performance. For more information, please refer to the "Principal risks" section of the prospectuses.

## Your expenses

As a shareholder of a John Hancock Funds II Lifetime Blend Portfolio, you incur two types of costs: (1) transaction costs, including sales charges (loads) on certain purchases or redemptions, and (2) ongoing costs, including management fees, distribution and service (Rule 12b-1) fees, and other portfolio expenses. In addition to the operating expenses which each portfolio bears directly, each portfolio indirectly bears a pro rata share of the operating expenses of the underlying funds in which each portfolio invests. Because underlying funds have varied operating expenses and transaction costs, and a portfolio may own different proportions of the underlying funds at different times, the amount of expenses incurred indirectly by the portfolio will vary. Had these indirect expenses been reflected in the following analysis, total expenses would have been higher than the amounts shown.

These examples are intended to help you understand your ongoing costs (in dollars) of investing in a portfolio so you can compare these costs with the ongoing costs of investing in other mutual funds. The examples are based on an investment of $\$ 1,000$ at the beginning of the period and held for the entire period (September 1 , 2023 through February 29, 2024).

## Actual expenses:

The first line of each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by $\$ 1,000$ (for example, an $\$ 8,600$ account value divided by $\$ 1,000=8.6$ ), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period ended" to estimate the expenses you paid on your account during this period.

## Hypothetical example for comparison purposes:

The second line of each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio for the share class and an assumed annualized rate of return of $5 \%$ per year before expenses, which is not the actual return of the share class. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in a portfolio and other funds. To do so, compare this $5 \%$ hypothetical example with the 5\% hypothetical examples that appear in the shareholder reports of the other funds. Please remember that these hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of each share class in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher. See the portfolios' prospectuses for details regarding transaction costs.

| Net asset value per share |  |  |  |  |

Net asset value per share
The portfolios have an unlimited number of shares authorized with no par value. Net asset value is calculated by dividing the net assets of each class of shares by the number of outstanding shares in the class.

| Class A ${ }^{1}$ |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Net assets | \$187,094,765 | \$103,359,889 | \$29,992,660 | \$12,075,297 |
| Shares outstanding | 17,095,385 | 9,909,238 | 2,999,734 | 1,243,525 |
| Net asset value and redemption price per share | \$10.94 | \$10.43 | \$10.00 | \$9.71 |
| Class R4 |  |  |  |  |
| Net assets | \$2,170,066 | \$1,319,189 | \$127,549 | \$96,204 |
| Shares outstanding | 198,550 | 126,719 | 12,776 | 9,923 |
| Net asset value, offering price and redemption price per share | \$10.93 | \$10.41 | \$9.98 | \$9.70 |
| Class R6 |  |  |  |  |
| Net assets | \$141,417,662 | \$57,564,163 | \$23,902,344 | \$13,122,125 |
| Shares outstanding | 12,934,957 | 5,519,809 | 2,392,116 | 1,352,597 |
| Net asset value, offering price and redemption price per share | \$10.93 | \$10.43 | \$9.99 | \$9.70 |

1 Based on average daily shares outstanding.
2 Net investment income is affected by the timing and frequency of the declaration of dividends by the underlying funds in which the portfolio invests.
3 Total returns would have been lower had certain expenses not been reduced and other income not been received from the Advisor for reimbursement of indirect net expenses associated with the portfolio's investments in underlying investment companies during the applicable periods.
4 Ratios do not include expenses indirectly incurred from underlying funds and can vary based on the mix of underlying funds held by the portfolio.
5 Six months ended 2-29-24. Unaudited.
6 Not annualized.
7 Does not reflect the effect of sales charges, if any.
8 Annualized.
9 Net investment income (loss) per share and net investment income (loss) ratio reflect other income received from the Advisor for reimbursement of indirect net expenses associated with the portfolio's investments in underlying investment companies of less than $\$ 0.005$ per share for the periods ended 8-31-22 and 8-31-21 and $0.01 \%$ and less than $0.005 \%$ for the period ended 8-31-22 and 8-31-21, respectively.
${ }^{10}$ The inception date for Class A shares is 6-21-21.
${ }^{11}$ Less than $\$ 0.005$ per share.
${ }^{12}$ Portfolio turnover is shown for the period from 9-23-20 to 8-31-21.
${ }^{13}$ Period from 9-23-20 (commencement of operations) to 8-31-21.

1 Based on average daily shares outstanding.
2 Net investment income is affected by the timing and frequency of the declaration of dividends by the underlying funds in which the portfolio invests.
3 Total returns would have been lower had certain expenses not been reduced and other income not been received from the Advisor for reimbursement of indirect net expenses associated with the portfolio's investments in underlying investment companies during the applicable periods.
4 Ratios do not include expenses indirectly incurred from underlying funds and can vary based on the mix of underlying funds held by the portfolio.
5 Six months ended 2-29-24. Unaudited.
6 Not annualized.
7 Does not reflect the effect of sales charges, if any.
8 Annualized.
9 Net investment income (loss) per share and net investment income (loss) ratio reflect other income received from the Advisor for reimbursement of indirect net expenses associated with the portfolio's investments in underlying investment companies of less than \$0.005 per share and $0.01 \%$ for the periods ended 8-31-22 and 8-31-19.
${ }^{10}$ The inception date for Class $A$ shares is 6-21-21.
${ }^{11}$ Portfolio turnover is shown for the period from 9-1-20 to 8-31-21.

## Notes to financial statements (unaudited)

## Note 1 - Organization

John Hancock Funds II (the Trust) is an open-end management investment company organized as a Massachusetts business trust. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act). It is a series company with multiple investment series, twelve of which are presented in this report (collectively, the Lifetime Blend Portfolios, or the portfolios and individually, the portfolio). The portfolios operate as "funds of funds" that may invest in affiliated underlying funds of the Trust, other funds in the John Hancock group of funds complex, non-John Hancock funds and certain other permitted investments.

The portfolios may offer multiple classes of shares. The shares currently offered by the portfolios are detailed in the Statements of assets and liabilities. Class A shares are offered to all investors. Class R4 shares are available only to certain retirement and 529 plans. Class R6 shares are only available to certain retirement plans, institutions and other investors. Class 1 shares are offered only to certain affiliates of Manulife Financial Corporation. Shareholders of each class have exclusive voting rights to matters that affect that class. The distribution and service fees, if any, and transfer agent fees for each class may differ.

The investment objective of each portfolio is to seek high total return through each portfolio's target retirement dates, with a greater focus on income beyond the target dates. Total return, commonly understood as the combination of income and capital appreciation, includes interest, capital gains, dividends, and distributions realized over a given period of time.

The accounting policies of the underlying funds in which the portfolios invest are outlined in the underlying funds' shareholder reports, which include the underlying funds' financial statements. These are available on the Securities and Exchange Commission (SEC) website at sec.gov. John Hancock underlying funds' shareholder reports are also available without charge by calling 800-225-5291 or visiting jhinvestments.com. The underlying funds are not covered by this report.

## Note 2 - Significant accounting policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP), which require management to make certain estimates and assumptions as of the date of the financial statements. Actual results could differ from those estimates and those differences could be significant. The portfolios qualify as investment companies under Topic 946 of Accounting Standards Codification of US GAAP.

Events or transactions occurring after the end of the fiscal period through the date that the financial statements were issued have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the portfolios:

Security valuation. Investments are stated at value as of the scheduled close of regular trading on the New York Stock Exchange (NYSE), normally at 4:00 P.M., Eastern Time. In case of emergency or other disruption resulting in the NYSE not opening for trading or the NYSE closing at a time other than the regularly scheduled close, the net asset value (NAV) may be determined as of the regularly scheduled close of the NYSE pursuant to the Valuation Policies and Procedures of the Advisor, John Hancock Investment Management LLC.

In order to value the securities, the portfolios use the following valuation techniques: Investments by the portfolios in underlying affiliated funds and other open-end mutual funds, including John Hancock Collateral Trust (JHCT), are valued at their respective NAVs each business day. Equity securities, including exchange-traded funds or closed-end funds, held by the portfolios are typically valued at the last sale price or official closing price on the exchange or principal market where the security trades. In the event there were no sales during the day or closing prices are not available, the securities are valued using the last available bid price. Debt obligations are typically valued based on evaluated prices provided by an independent pricing vendor. Independent pricing vendors utilize matrix pricing, which takes into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data, as well as broker supplied prices. Foreign securities and currencies are valued in U.S. dollars based on foreign currency exchange rates supplied by an independent pricing vendor.

In certain instances, the Pricing Committee of the Advisor may determine to value equity securities using prices obtained from another exchange or market if trading on the exchange or market on which prices are typically obtained did not open for trading as scheduled, or if trading closed earlier than scheduled, and trading occurred as normal on another exchange or market.

Other portfolio securities and assets, for which reliable market quotations are not readily available, are valued at fair value as determined in good faith by the Pricing Committee following procedures established by the Advisor and adopted by the Board of Trustees. The frequency with which these fair valuation procedures are used cannot be predicted and fair value of securities may differ significantly from the value that would have been used had a ready market for such securities existed. Trading in foreign securities may be completed before the scheduled daily close of trading on the NYSE. Significant events at the issuer or market level may affect the values of securities between the time when the valuation of the securities is generally determined and the close of the NYSE. If a significant event occurs, these securities may be fair valued, as determined in good faith by the Pricing Committee, following procedures established by the Advisor and adopted by the Board of Trustees. The Advisor uses fair value adjustment factors provided by an independent pricing vendor to value certain foreign securities in order to adjust for events that may occur between the close of foreign exchanges or markets and the close of the NYSE.

The portfolios use a three tier hierarchy to prioritize the pricing assumptions, referred to as inputs, used in valuation techniques to measure fair value. Level 1 includes securities valued using quoted prices in active markets for identical securities, including registered investment companies. Level 2 includes securities valued using other significant observable inputs. Observable inputs may include quoted prices for similar securities, interest rates, prepayment speeds and credit risk. Prices for securities valued using these inputs are received from independent pricing vendors and brokers and are based on an evaluation of the inputs described. Level 3 includes securities valued using significant unobservable inputs when market prices are not readily available or reliable, including the Advisor's assumptions in determining the fair value of investments. Factors used in determining value may include market or issuer specific events or trends, changes in interest rates and credit quality. The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Changes in valuation techniques and related inputs may result in transfers into or out of an assigned level within the disclosure hierarchy.

The following is a summary of the values by input classification of the portfolios' investments as of February 29, 2024, by major security category or type:

|  | Total value at 2-29-24 | Level 1 quoted price | Level 2 significant observable inputs | Level 3 significant unobservable inputs |
| :---: | :---: | :---: | :---: | :---: |

Level 3 includes securities valued at $\$ 0$. Refer to Portfolios' investments.
Inflation-indexed bonds. Inflation-indexed bonds are securities that generally have a lower coupon interest rate fixed at issuance but whose principal value is periodically adjusted based on a rate of inflation, such as the Consumer Price Index. Over the life of an inflation-indexed bond, interest is paid on the inflation adjusted principal value as described above. Increases in the principal amount of these securities are recorded as interest income. Decreases in the principal amount of these securities may reduce interest income to the extent of income previously recorded. If these decreases are in excess of income previously recorded, an adjustment to the cost of the security is made.

Stripped securities. Stripped securities are financial instruments structured to separate principal and interest cash flows so that one class receives principal payments from the underlying assets (PO or principal only), while the other class receives the interest cash flows (IO or interest only). Both PO and IO investments represent an interest in the cash flows of an underlying stripped security. If the underlying assets experience greater than anticipated prepayments of principal, the portfolios may fail to fully recover its initial investment in an IO security. The market value of these securities can be extremely volatile in response to changes in interest rates or prepayments on the underlying securities. In addition, these securities present additional credit risk such that the portfolios may not receive all or part of its principal or interest payments because the borrower or issuer has defaulted on its obligation.
Real estate investment trusts. The portfolios may invest in real estate investment trusts (REITs). Distributions from REITs may be recorded as income and subsequently characterized by the REIT at the end of their fiscal year as a reduction of cost of investments and/or as a realized gain. As a result, the portfolios will estimate the components of distributions from these securities. Such estimates are revised when the actual components of the distributions are known.

Security transactions and related investment income. Investment security transactions are accounted for on a trade date plus one basis for daily NAV calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is accrued as earned. Interest income includes coupon interest and amortization/accretion of premiums/discounts on debt securities. Debt obligations may be placed in a non-accrual status and related interest income may be reduced by stopping current accruals and writing off interest receivable when the collection of all or a portion of interest has become doubtful. Capital gain distributions from underlying funds are recorded on ex-date. Dividend income is recorded on ex-date, except for dividends of certain foreign securities where the dividend may not be known until after the ex-date. In those cases, dividend income, net of withholding taxes, is recorded when the portfolio becomes aware of the dividends. Non-cash dividends, if any, are recorded at the fair market value of the securities received. Gains and losses on securities sold are determined on the basis of identified cost and may include proceeds from litigation.

Securities lending. The portfolios may lend their securities to earn additional income. The portfolios receive collateral from the borrower in an amount not less than the market value of the loaned securities. The portfolios may invest their cash collateral in JHCT, an affiliate of the portfolios, which has a floating NAV and is registered with the SEC as an investment company. JHCT is a prime money market fund and invests in short-term money market investments. Each portfolio will receive the benefit of any gains and bear any losses generated by JHCT with respect to the cash collateral.
The portfolios have the right to recall loaned securities on demand. If a borrower fails to return loaned securities when due, then the lending agent is responsible and indemnifies the portfolios for the lent securities. The lending agent uses the collateral received from the borrower to purchase replacement securities of the same issue, type, class and series of the loaned securities. If the value of the collateral is less than the purchase cost of replacement securities, the lending agent is responsible for satisfying the shortfall but only to the extent that the shortfall is not due to any decrease in the value of JHCT.
Although the risk of loss on securities lent is mitigated by receiving collateral from the borrower and through lending agent indemnification, the portfolios could experience a delay in recovering securities or could experience a lower than expected return if the borrower fails to return the securities on a timely basis. During the existence of the loan, the portfolios will receive from the borrower amounts equivalent to any dividends, interest or other distributions on the loaned securities, as well
as interest on such amounts. The portfolios receive compensation for lending their securities by retaining a portion of the return on the investment of the collateral and compensation from fees earned from borrowers of the securities. Securities lending income received by the portfolios is net of fees retained by the securities lending agent. Net income received from JHCT is a component of securities lending income as recorded on the Statements of operations.

Obligations to repay collateral received by the portfolios are shown on the Statements of assets and liabilities as Payable upon return of securities loaned and are secured by the loaned securities. The following table summarizes the values of securities loaned by the portfolios and the corresponding cash collateral received at February 29, 2024:

| Portfolio | Market value of securities on loan | Cash collateral received |
| :--- | ---: | ---: |
| 2060 Lifetime Blend Portfolio | $\$ 5,042,676$ | $\$ 5,159,125$ |
| 2055 Lifetime Blend Portfolio | 509,143 | 519,650 |
| 2050 Lifetime Blend Portfolio | $9,475,558$ | $9,668,475$ |
| 2045 Lifetime Blend Portfolio | $3,832,801$ | $3,914,050$ |
| 2040 Lifetime Blend Portfolio | $8,241,422$ | $8,428,850$ |
| 2035 Lifetime Blend Portfolio | $22,456,564$ | $22,980,550$ |
| $\mathbf{2 0 3 0}$ Lifetime Blend Portfolio | $4,938,241$ | $5,038,600$ |
| 2025 Lifetime Blend Portfolio | $10,136,472$ | $10,340,160$ |

Foreign investing. Assets, including investments, and liabilities denominated in foreign currencies are translated into U.S. dollar values each day at the prevailing exchange rate. Purchases and sales of securities, income and expenses are translated into U.S. dollars at the prevailing exchange rate on the date of the transaction. The effect of changes in foreign currency exchange rates on the value of securities is reflected as a component of the realized and unrealized gains (losses) on investments. Foreign investments are subject to a decline in the value of a foreign currency versus the U.S. dollar, which reduces the dollar value of securities denominated in that currency.

Portfolios that invest internationally generally carry more risk than portfolios that invest strictly in U.S. securities. Risks can result from differences in economic and political conditions, regulations, market practices (including higher transaction costs), accounting standards and other factors.

Overdraft. The portfolios may have the ability to borrow from banks for temporary or emergency purposes, including meeting redemption requests that otherwise might require the untimely sale of securities. Pursuant to the portfolios' custodian agreement, the custodian may loan money to the portfolios to make properly authorized payments. The portfolios are obligated to repay the custodian for any overdraft, including any related costs or expenses. The custodian may have a lien, security interest or security entitlement in any portfolio property that is not otherwise segregated or pledged, to the extent of any overdraft, and to the maximum extent permitted by law. Overdrafts at period end, if any, are presented under the caption Due to custodian in the Statements of assets and liabilities.

Line of credit. The portfolios and other affiliated funds have entered into a syndicated line of credit agreement with Citibank, N.A. as the administrative agent that enables them to participate in a $\$ 1$ billion unsecured committed line of credit. Excluding commitments designated for a certain fund and subject to the needs of all other affiliated funds, a portfolio can borrow up to an aggregate commitment amount of $\$ 750$ million, subject to asset coverage and other limitations as specified in the agreement. A commitment fee payable at the end of each calendar quarter, based on the average daily unused portion of each line of credit, is charged to each participating portfolio based on a combination of fixed and asset-based allocations and is reflected in Other expenses on the Statements of operations.

Commitment fees for the six months ended February 29, 2024 were as follows:

| Portfolio | Commitment fee |
| :--- | :---: |
| 2065 Lifetime Blend Portfolio | $\$ 1,788$ |
| 2060 Lifetime Blend Portfolio | 1,982 |
| 2055 Lifetime Blend Portfolio | 2,195 |
| 2050 Lifetime Blend Portfolio | 2,344 |
| 2045 Lifetime Blend Portfolio | 2,513 |
| 2040 Lifetime Blend Portfolio | 2,603 |
| 2035 Lifetime Blend Portfolio | 2,784 |
| 2030 Lifetime Blend Portfolio | 2,801 |
| 2025 Lifetime Blend Portfolio | 2,612 |
| 2020 Lifetime Blend Portfolio | 2,162 |
| 2015 Lifetime Blend Portfolio | 1,854 |
| 2010 Lifetime Blend Portfolio | 1,819 |

Expenses. Within the John Hancock group of funds complex, expenses that are directly attributable to an individual portfolio are allocated to such portfolio. Expenses that are not readily attributable to a specific portfolio are allocated among all portfolios in an equitable manner, taking into consideration, among other things, the nature and type of expense and each portfolio's relative net assets. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known.

Class allocations. Income, common expenses and realized and unrealized gains (losses) are determined at the portfolio level and allocated daily to each class of shares based on the net assets of the class. Class-specific expenses, such as distribution and service fees, if any, and transfer agent fees, for all classes, are charged daily at the class level based on the net assets of each class and the specific expense rates applicable to each class.

Federal income taxes. Each portfolio intends to continue to qualify as a regulated investment company by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required.

For federal income tax purposes, as of August 31, 2023, certain portfolios have capital loss carryforwards available to offset future net realized capital gains. The following table details the capital loss carryforwards available as of August 31, 2023:

|  | No Expiration Date |  |
| :--- | ---: | ---: |
| Portfolio | Short Term | Long Term |
| 2065 Lifetime Blend Portfolio | $\$ 262,943$ | - |
| 2060 Lifetime Blend Portfolio | 646,601 | $\$ 612,892$ |
| 2055 Lifetime Blend Portfolio | $2,319,480$ | $2,255,908$ |
| 2050 Lifetime Blend Portfolio | $4,093,332$ | $3,652,698$ |
| 2045 Lifetime Blend Portfolio | $3,511,967$ | $3,675,454$ |
| 2040 Lifetime Blend Portfolio | $1,444,314$ | $4,738,633$ |
| 2035 Lifetime Blend Portfolio | 413,289 | $7,723,247$ |
| 2030 Lifetime Blend Portfolio | - | $9,606,779$ |
| 2025 Lifetime Blend Portfolio | 353,328 | $7,396,807$ |
| 2020 Lifetime Blend Portfolio | 155,022 | $2,446,460$ |
| 2015 Lifetime Blend Portfolio | 12,883 | 582,232 |
| 2010 Lifetime Blend Portfolio | 29,432 | 43,196 |

As of August 31, 2023, the portfolios had no uncertain tax positions that would require financial statement recognition, derecognition or disclosure. The portfolios' federal tax returns are subject to examination by the Internal Revenue Service for a period of three years.

For federal income tax purposes, the costs of investments owned on February 29, 2024, including short-term investments, were as follows:

| Portfolio | Aggregate cost | Unrealized appreciation | Unrealized (depreciation) | Net unrealized appreciation/ (depreciation) |
| :---: | :---: | :---: | :---: | :---: |
| 2065 Lifetime Blend Portfolio | \$51,322,591 | \$5,555,434 | \$(199,463) | \$5,355,971 |
| 2060 Lifetime Blend Portfolio | 188,772,109 | 18,831,816 | $(779,772)$ | 18,052,044 |
| 2055 Lifetime Blend Portfolio | 329,926,443 | 35,155,419 | $(1,453,504)$ | 33,701,915 |
| 2050 Lifetime Blend Portfolio | 435,366,912 | 46,004,746 | $(1,929,790)$ | 44,074,956 |
| 2045 Lifetime Blend Portfolio | 530,093,634 | 50,279,679 | $(3,326,870)$ | 46,952,809 |
| 2040 Lifetime Blend Portfolio | 626,658,964 | 49,087,108 | $(5,758,260)$ | 43,328,848 |
| 2035 Lifetime Blend Portfolio | 755,468,472 | 50,323,723 | $(9,193,295)$ | 41,130,428 |
| 2030 Lifetime Blend Portfolio | 764,948,991 | 40,387,153 | $(12,168,070)$ | 28,219,083 |
| 2025 Lifetime Blend Portfolio | 601,291,787 | 20,011,964 | $(10,231,831)$ | 9,780,133 |
| 2020 Lifetime Blend Portfolio | 276,336,810 | 7,019,223 | $(5,470,315)$ | 1,548,908 |
| 2015 Lifetime Blend Portfolio | 86,916,813 | 967,218 | $(1,305,350)$ | $(338,132)$ |
| 2010 Lifetime Blend Portfolio | 62,065,127 | 2,388,881 | $(3,807,929)$ | $(1,419,048)$ |

Distribution of income and gains. Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-date. The portfolios generally declare and pay dividends and capital gain distributions, if any, annually.

Distributions paid by the portfolios with respect to each class of shares are calculated in the same manner, at the same time and in the same amount, except for the effect of class level expenses that may be applied differently to each class.

Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from US GAAP. Distributions in excess of tax basis earnings and profits, if any, are reported in the portfolios' financial statements as a return of capital. The final determination of tax characteristics of the portfolio's distribution will occur at the end of the year and will subsequently be reported to shareholders. Short-term gains from underlying funds are treated as ordinary income for tax purposes.

Capital accounts within the financial statements are adjusted for permanent book-tax differences. These adjustments have no impact on net assets or the results of operations. Temporary book-tax differences, if any, will reverse in a subsequent period. Book-tax differences are primarily attributable to wash sale loss deferrals.

## Note 3 - Guarantees and indemnifications

Under the Trust's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust, including the portfolios. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred. The risk of material loss from such claims is considered remote.

## Note 4 - Fees and transactions with affiliates

John Hancock Investment Management LLC (the Advisor) serves as investment advisor for the portfolios. John Hancock Investment Management Distributors LLC (the Distributor), an affiliate of the Advisor, serves as principal underwriter of the portfolios. The Advisor and the Distributor are indirect, principally owned subsidiaries of John Hancock Life Insurance Company (U.S.A.), which in turn is a subsidiary of Manulife Financial Corporation.

Management fee. The portfolios have an investment management agreement with the Advisor under which the portfolios pay a daily management fee to the Advisor as detailed below. The Advisor has a subadvisory agreement with Manulife Investment Management (US) LLC, an indirect, wholly owned subsidiary of Manulife Financial Corporation and an affiliate of the Advisor. The portfolios are not responsible for payment of the subadvisory fees.

The management fee has two components: (1) a fee on assets invested in a fund of the Trust or John Hancock Funds III (JHF III) (Assets in a fund of the Trust or JHF III); and (2) a fee on assets invested in investments other than a fund of the Trust or JHF III (Other assets). Aggregate net assets include the net assets of the portfolios, similar portfolios of John Hancock Variable Insurance Trust (JHVIT), and similar portfolios of the Trust. JHVIT funds are advised by an affiliate of the Advisor, John Hancock Variable Trust Advisers LLC and are distributed by an affiliate of the Advisor, John Hancock Distributors, LLC.

Management fees are determined in accordance with the following schedule:

|  | First $\$ 7.5$ billion of <br> aggregate net assets | Excess over $\$ 7.5$ billion of <br> aggregate net assets |
| :--- | :---: | :---: |
| Assets in a fund of the Trust or JHF III | $0.060 \%$ | $0.050 \%$ |
| Other assets | $0.510 \%$ | $0.500 \%$ |

Expense reimbursements. The Advisor has contractually agreed to reduce its management fees or if necessary make payment to each portfolio in an amount by which certain expenses, including underlying fund expenses (acquired fund fees), exceed the amount indicated below of the respective portfolio's average net assets. This agreement expires on December 31, 2024, unless renewed by mutual agreement of the portfolios and the advisor based upon a determination that this is appropriate under the circumstances at that time.

|  | Expense <br> limitation as a <br> percentage of <br> average net <br> assets | Expense <br> limitation as a <br> percentage of <br> average net <br> assets |
| :--- | ---: | :--- |
| Portfolio | $0.31 \%$ | 2035 Lifetime Blend Portfolio |

Payments under this arrangement are intended to reimburse the portfolios for a portion of the indirect net expenses associated with the portfolios' investments in underlying funds. Amounts received in excess of portfolio level operating expenses, if any, are included as Other income received from advisor in the Statements of operations.

The Advisor has voluntarily agreed to waive its management fee for each portfolio so that the aggregate management fee retained by the Advisor with respect to both the portfolio and its underlying investments (after payment of subadvisory fees) does not exceed $0.51 \%$ of the portfolio's first $\$ 7.5$ billion of average net assets and $0.50 \%$ of the portfolio's average net assets in excess of $\$ 7.5$ billion. The Advisor may terminate this voluntary waiver at any time upon notice to the Trust.

For the six months ended February 29, 2024, the expense reductions under these agreements amounted to the following and are reflected as a reduction of total expenses in the Statements of operations:

| Portfolio | imburs |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Class A | Class R4 | Class R6 | Class 1 | Total |
| 2065 Lifetime Blend Portfolio | \$11,515 | \$438 | \$17,681 | \$113,971 | \$143,605 |
| 2060 Lifetime Blend Portfolio | 52,559 | 2,610 | 76,983 | 210,334 | 342,486 |
| 2055 Lifetime Blend Portfolio | 100,406 | 3,825 | 116,402 | 339,458 | 560,091 |
| 2050 Lifetime Blend Portfolio | 144,034 | 4,578 | 153,589 | 409,069 | 711,270 |
| 2045 Lifetime Blend Portfolio | 172,716 | 6,510 | 177,525 | 512,787 | 869,538 |
| 2040 Lifetime Blend Portfolio | 174,998 | 3,565 | 225,567 | 565,949 | 970,079 |
| 2035 Lifetime Blend Portfolio | 204,819 | 8,697 | 259,418 | 681,565 | 1,154,499 |
| 2030 Lifetime Blend Portfolio | 220,900 | 11,128 | 285,171 | 640,767 | 1,157,966 |
| 2025 Lifetime Blend Portfolio | 255,350 | 4,778 | 198,423 | 431,493 | 890,044 |
| 2020 Lifetime Blend Portfolio | 158,433 | 3,170 | 88,842 | 196,099 | 446,544 |
| 2015 Lifetime Blend Portfolio | 60,666 | 451 | 46,614 | 75,029 | 182,760 |
| 2010 Lifetime Blend Portfolio | 28,353 | 252 | 27,429 | 93,533 | 149,567 |

Expenses waived or reimbursed in the current fiscal period are not subject to recapture in future fiscal periods.
The investment management fees, including the impact of the waivers and reimbursements as described above, incurred for the six months ended February 29, 2024, were equivalent to a net annual effective rate of the portfolios' average daily net assets as follows:

| Portfolio | Net Annual Effective Rate | Portfolio | Net Annual Effective Rate |  |
| :--- | ---: | :--- | ---: | :--- |
| 2065 Lifetime Blend Portfolio | $0.00 \%$ |  | 2035 Lifetime Blend Portfolio | $0.00 \%$ |
| 2060 Lifetime Blend Portfolio | $0.00 \%$ |  | 2030 Lifetime Blend Portfolio | $0.02 \%$ |
| 2055 Lifetime Blend Portfolio | $0.00 \%$ |  | 2025 Lifetime Blend Portfolio | $0.07 \%$ |
| 2050 Lifetime Blend Portfolio | $0.00 \%$ |  | 2020 Lifetime Blend Portfolio | $0.09 \%$ |
| 2045 Lifetime Blend Portfolio | $0.00 \%$ |  | 2015 Lifetime Blend Portfolio | $0.00 \%$ |
| 2040 Lifetime Blend Portfolio | $0.00 \%$ | 2010 Lifetime Blend Portfolio | $0.00 \%$ |  |

Accounting and legal services. Pursuant to a service agreement, the portfolios reimburse the Advisor for all expenses associated with providing the administrative, financial, legal, compliance, accounting and recordkeeping services to the portfolios, including the preparation of all tax returns, periodic reports to shareholders and regulatory reports, among other services. These expenses are allocated to each share class based on its relative net assets at the time the expense was incurred. These accounting and legal services fees incurred, for the six months ended February 29,2024 , amounted to an annual rate of $0.02 \%$ of the portfolios' average daily net assets.

Distribution and service plans. The portfolios have a distribution agreement with the Distributor. The portfolios have adopted distribution and service plans for certain classes as detailed below pursuant to Rule 12b-1 under the 1940 Act, to pay the Distributor for services provided as the distributor of shares of the portfolios. In addition, under a service plan for certain classes as detailed below, the portfolios pay for certain other services. The portfolios may pay up to the following contractual rates of distribution and service fees under these arrangements, expressed as an annual percentage of average daily net assets for each class of the portfolios' shares:

| Class | Rule 12b-1 Fee | Service fee |
| :--- | ---: | ---: |
| Class A | $0.30 \%$ | - |
| Class R4 | $0.25 \%$ | $0.10 \%$ |
| Class 1 | $0.05 \%$ | - |

The portfolios' Distributor has contractually agreed to waive $0.10 \%$ of Rule12b-1 fees for Class R4 shares. The current waiver agreement expires on December 31, 2024, unless renewed by mutual agreement of the portfolios and the Distributor based upon a determination that this is appropriate under the circumstances at the time. This contractual waiver amounted to the following for Class R4 shares for the six months ended February 29, 2024:

| Portfolio | Class R4 | Portfolio | Class R4 |
| :--- | ---: | :--- | ---: | ---: |
| 2065 Lifetime Blend Portfolio | $\$ 75$ | 2035 Lifetime Blend Portfolio | $\$ 2,680$ |
| 2060 Lifetime Blend Portfolio | 685 | 2030 Lifetime Blend Portfolio | 3,447 |
| 2055 Lifetime Blend Portfolio | 1,111 | 2025 Lifetime Blend Portfolio | 1,526 |
| 2050 Lifetime Blend Portfolio | 1,382 | 2020 Lifetime Blend Portfolio | 953 |
| 2045 Lifetime Blend Portfolio | 1,980 | 2015 Lifetime Blend Portfolio | 103 |
| 2040 Lifetime Blend Portfolio | 1,108 | 2010 Lifetime Blend Portfolio | 49 |

Sales charges. Class A shares are assessed up-front sales charges of up to $5.00 \%$ of net asset value for such shares. The following table summarizes the net up-front sales charges received by the Distributor during the six months ended February 29, 2024:

|  | 2065 Lifetime Blend Portfolio | 2060 Lifetime <br> Blend Portfolio | 2055 Lifetime Blend Portfolio | 2050 Lifetime Blend Portfolio | 2045 Lifetime <br> Blend Portfolio | 2040 Lifetime Blend Portfolio | 2035 Lifetime Blend Portfolio | 2030 Lifetime Blend Portfolio | 2025 Lifetime Blend Portfolio | 2015 Lifetime Blend Portfolio |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Total sales charges | \$996 | \$4,324 | \$1,183 | \$4,534 | \$792 | \$1,790 | \$3,489 | \$142 | \$257 | \$10 |
| Retained for printing prospectus, advertising and sales literature | 162 | 669 | 205 | 729 | 123 | 286 | 564 | 28 | 47 | 1 |
| Sales commission to unrelated broker-dealers | 834 | 3,655 | 978 | 3,805 | 669 | 1,504 | 2,925 | 114 | 210 | 9 |

Class A shares may be subject to contingent deferred sales charges (CDSCs). Certain Class A shares purchased, including those that are acquired through purchases of $\$ 1$ million or more, and redeemed within one year of purchase are subject to a $1.00 \%$ sales charge. CDSCs are applied to the lesser of the current market value at the time of redemption or the original purchase cost of the shares being redeemed. Proceeds from CDSCs are used to compensate the Distributor for providing distribution-related services in connection with the sale of these shares. During the six months ended February 29, 2024, CDSCs received by the Distributor for Class A shares were as follows:
Portfolio
2065 Lifetime Blend Portfolio

Transfer agent fees. The John Hancock group of funds has a complex-wide transfer agent agreement with John Hancock Signature Services, Inc. (Signature Services), an affiliate of the Advisor. The transfer agent fees paid to Signature Services are determined based on the cost to Signature Services (Signature Services Cost) of providing recordkeeping services. It also includes out-of-pocket expenses, including payments made to third-parties for recordkeeping services provided to their clients who invest in one or more John Hancock funds. In addition, Signature Services Cost may be reduced by certain fees that Signature Services receives in connection with retirement and small accounts. Signature Services Cost is calculated monthly and allocated, as applicable, to five categories of share classes: Retail Share and Institutional Share Classes of Non-Municipal Bond Funds, Class R6 Shares, Retirement Share Classes and Municipal Bond Share Classes. Within each of these categories, the applicable costs are allocated to the affected John Hancock affiliated funds and/or classes, based on the relative average daily net assets.

Class level expenses. Class level expenses for the six months ended February 29, 2024 were as follows:

| Portfolio | Class | Distribution and service fees | Transfer agent fees |
| :---: | :---: | :---: | :---: |
| 2065 Lifetime Blend Portfolio | Class A | \$5,817 | \$2,367 |
|  | Class R4 | 245 | 4 |
|  | Class R6 | - | 157 |
|  | Class 1 | 9,618 | - |
|  | Total | \$15,680 | \$2,528 |
| 2060 Lifetime Blend Portfolio | Class A | \$40,859 | \$16,634 |
|  | Class R4 | 2,380 | 35 |
|  | Class R6 | - | 1,052 |

| 2015 Lifetime Blend Portfolio | 2,401,868 | 40,014,979 | 1,769,398 | 35,512,677 |
| 2010 Lifetime Blend Portfolio | 1,541,253 | 26,919,371 | 1,328,438 | 27,461,645 |

## Note 7 - Investment in affiliated underlying funds

Certain portfolios invest primarily in affiliated underlying funds that are managed by the Advisor and its affiliates. The portfolios do not invest in the affiliated underlying funds for the purpose of exercising management or control; however, the portfolios' investment may represent a significant portion of each affiliated underlying funds' net assets. At February 29, 2024, the portfolios did not hold $5 \%$ or more of the net assets of any affiliated underlying funds.

Information regarding the portfolios' fiscal year to date purchases and sales of the affiliated underlying funds as well as income and capital gains earned by the portfolios, if any, is as follows:

|  |  |  |  |  |  |  | Dividends and | butions |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

A company of III Manulife Investment Management

[^0]:    This commentary reflects the CEO's views as of this report's period end and are subject to change at any time. Diversification does not guarantee investment returns and does not eliminate risk of loss. All investments entail risks, including the possible loss of principal. For more up-to-date information, you can visit our website at jhinvestments.com.

[^1]:    Market index total returns are included here as broad measures of market performance.

[^2]:    1 Expenses are equal to the annualized expense ratio, multiplied by the average account value over the period, multiplied by $182 / 366$ (to reflect the one-half year period).
    2 Ratios do not include expenses indirectly incurred by the underlying funds and can vary based on the mix of underlying funds held by the portfolios.

[^3]:    1 Redemption price per share is equal to net asset value less any applicable contingent deferred sales charge.
    On single retail sales of less than $\$ 50,000$. On sales of $\$ 50,000$ or more and on group sales the offering price is reduced.

[^4]:    1 Redemption price per share is equal to net asset value less any applicable contingent deferred sales charge.
    On single retail sales of less than $\$ 50,000$. On sales of $\$ 50,000$ or more and on group sales the offering price is reduced.

[^5]:    1 Redemption price per share is equal to net asset value less any applicable contingent deferred sales charge.
    On single retail sales of less than $\$ 50,000$. On sales of $\$ 50,000$ or more and on group sales the offering price is reduced.

[^6]:    * Refer to the Securities lending note within Note 2 for details regarding this investment.

[^7]:    John Hancock ETF shares are bought and sold at market price (not NAV), and are not individually redeemed from the fund. Brokerage commissions will reduce returns.
    John Hancock ETFs are distributed by Foreside Fund Services, LLC, and are subadvised by Manulife Investment Management (US) LLC or Dimensional
    Fund Advisors LP. Foreside is not affiliated with John Hancock Investment Management Distributors LLC, Manulife Investment Management (US) LLC or Dimensional Fund Advisors LP.
    Dimensional Fund Advisors LP receives compensation from John Hancock in connection with licensing rights to the John Hancock Dimensional indexes. Dimensional Fund Advisors LP does not sponsor, endorse, or sell, and makes no representation as to the advisability of investing in, John Hancock Multifactor ETFS.
