Management's Discussion of Fund Performance

SUMMARY OF RESULTS

Municipal Opportunities Fund (Class R6/JTMRX) returned 3.92% for the year ended May 31, 2024. The most significant factors affecting Fund performance during the period included rising municipal bond yields, stronger-than-expected economic growth, and lowered expectations for interest rate cuts by the U.S. Federal Reserve. Sector performance in the municipal market was also a key factor, with high-yield bonds outperforming by a significant margin during the period.

TOP PERFORMANCE CONTRIBUTORS

High-yield bonds | A position in high-yield securities provided a boost to Fund performance.

Healthcare bonds | Bonds funding hospitals and continuing care retirement facilities were the leading contributors.

Education bonds | Bonds backing charter schools and higher education contributed the most in this sector.

TOP PERFORMANCE DETRACTORS

Duration (interest rate sensitivity) | Rising bond yields put downward pressure on bond prices.

Selected hospital bonds | Although the hospital sector performed well overall, several individual holdings in the sector detracted from performance.
