## Management's Discussion of Fund Performance

### SUMMARY OF RESULTS

Small Cap Value Fund (Class R6/JSCCX) returned 16.85% for the year ended August 31, 2024. The most significant factors affecting fund performance during the period included declining inflation, resilient U.S. economic growth, and expectations for interest rate cuts by the U.S. Federal Reserve, all of which contributed to a broad equity market rally.

### TOP PERFORMANCE CONTRIBUTORS

**Financials sector** | The financials sector was both the fund's largest sector weighting and its top-performing sector.

**ACI Worldwide, Inc.** | The payment software company rallied sharply during the period, exceeding earnings expectations for four consecutive quarters.

**Kontoor Brands, Inc.** | Strong revenue growth, expanding profit margins, and improving cash flow generation boosted the stock of this apparel company.

### TOP PERFORMANCE DETRACTORS

**Health care and communication services sectors** | These were the only two sectors in the portfolio to decline for the period.

**Integra LifeSciences Holdings Corp.** | The medical devices company fell due to a product recall that led to disappointing earnings.

**Visteon Corp.** | Decreased vehicle production led to lowered revenue guidance, which weighed on the stock of this automotive electronic components manufacturer.
